Personal Portfolio Website : <http://azizkarakhanyan.com>

Summary

Functionality driven web developer with a neuroscience background. Excel at working in cross-functional teams. Constantly learning and growing, both in craft and as a person.

Experience

STARTUP INSTITUTE– Boston, MA June 2017 – August 2017

Frontend Developer

Selected from a highly-competitive applicant pool for an eight-week education program. Startup Institute gives people the skills, mindset, and network to be high-impact employees at innovative companies.

Coursework:

- HTML, CSS, CSS3, JavaScript, and jQuery
- Best practices and techniques for responsive design
- Conducting user research and testing
- Wireframing, low-fidelity mockups, and rapid prototyping
- Effective portfolio presentation

HARVARD MEDICAL SCHOOL– Boston, MA June 2016 – June 2017

Microscopy Associate

- Navigated users through microscope/software issues, followed up to ensure resolution.
- Troubleshooted and maintained 21 microscopes, tracking problems with a ticket system.
- Trained users on experimental design, proper microscope and software use.
- Optimized equipment database accessibility and efficiency via a web-based application.
